> Dear Benad: It was great to meet; I appreciate your email and look forward to our explorations. I've floated the idea here (Beijing) - in general (no names) - with a (very) few trusted friends, and everyone concurs that, no surprise, healthcare is top priority, huge investments must be made, and Israeli technologies are much admired.
>
> Dear Ehud (if I may): I have long respected your leadership and contributions and I very much look forward to meeting.
>
> I will be in New York from May 23 to June 12, then back to Beijing. If these dates do not fit your calendar, and because it is not clear when our geographies would naturally overlap, perhaps we should conduct a teleconference via Skype or Facetime. I'd be available almost any night in China April 11-20, 24-28. Then Los Angeles May 1-9. (May 14-17 I'm in Mexico City - my wife is piano soloist with the OFUNAM orchestra / Nezahualcoyotl concert hall.)

It was a pleasure to meet you at Yoram Tietz's office and to discuss the idea of Chinese investments in the life sciences in Israel. As promised, I discussed our meeting with Ehud Barak and suggested the possibility of you joining us in this endeavor. Ehud is open to it and would like to meet with you, may be in New York or in Israel.

I cc'd Ehud on this letter so you two may write to each other directly to try and coordinate a meeting between you.

I am looking forward to continuing discussions amongst us,

Best Regards,

Benad
